

Sizes:

Minimum Custom Size: 11" x 12"
Maximum Custom Size: 20" x 25"

All panels are rectangles and can be made to your specifications. For example, if you need a 23" x 14" panel, we can do it. How about a 20" x 20"? We can do that too. You just tell us what size you want, within the ranges above, and we'll make it for you.

Standard stock sizes: 11" x 14"
16" x 20"
20" x 24"

We offer favorable pricing for standard stock sizes - please call for more information.

Materials and Installation:

These panels are made from the same materials as our industry leading memorial portraits. You can be assured of beautiful color, clarity and strength. Each panel is handmade by us and flanged 3/8" on the edges for stability and strength. We hand apply your image using our proprietary and industry unique printing process for a beautiful reproduction of your artwork.

All panels are intended to be installed on the surface of your memorial or architectural substrate. Relief beads or lines are typically blasted 7/16" to 1/2" inch deep at the perimeter dimensions. The panel is adhered to the stone using your favorite stone epoxy or adhesive. We highly recommend that you don't blast the bead/line until you receive your panel due to slight manufacturing variances.

Production Time:

Custom sized panels are made at the time of order – please allow six weeks for in-house production time. Standard stock sizes are on the shelf – please allow four weeks for in-house production time on these items.

You will receive a digital proof of the artwork prior to us printing and firing. Your turn-around time may vary depending on your approval process.

Pricing:

Custom panels are priced based on size. Standard sized panels are available at a reduced rate. Please call us for a quote.
